Independent Auditors' Report on Supplementary Information

To the Board of Education of
Berkeley School District 87

We have audited the financial statements of the governmental activities and each major fund of Berkeley School District 87 (the District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 8, 2023 which contained unmodified opinions on those financial statements. Our audit was performed for the purpose of forming opinions on the financial statements as a whole.

The accompanying Annual Financial Report (ISBE Form SD50-35/JA23), as of and for the year ended June 30, 2023, has been prepared in the form prescribed by the Illinois State Board of Education, is presented for purposes of additional analysis, and is not a required part of the basic financial statements referenced in the preceding paragraph. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the financial profile information, estimated financial profile summary, statistical section, report on shared services or outsourcing, administrative cost worksheet, itemization schedule and deficit reduction calculation, which were not audited and on which we render no opinion, has been subjected to the auditing procedures applied to the audit of the basic financial statements and certain other additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for those portions identified in the previous sentence as not audited, the Annual Financial Report is fairly stated in all material respects, in relation to the basic financial statements as a whole.

The answers to questions 1 through 23 contained in the "Auditor's Questionnaire" on page 2 are based solely on the procedures performed and data obtained during the audit of the basic financial statements of the District as of and for the year ended June 30, 2023.

This report is intended solely for the information and use of the Board of Education, management of the Berkeley School District 87 and the Illinois State Board of Education and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO BASIC FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Berkeley School District 87 (the "District") operates as a public school system governed by a seven-member board. The District is organized under the School Code of the State of Illinois, as amended. The accounting policies of the District conform to the regulatory provisions prescribed by the Illinois State Board of Education, which is a comprehensive basis of accounting other than accounting principles accepted in the United States of America, as applicable to local governmental units of this type. The following is a summary of the more significant accounting policies of the District:

Reporting Entity

This report includes all of the funds of the District. The reporting entity for the District consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The District has not identified any organizations that meet this criteria.

Basis of Presentation

The accounts of the District in the governmental fund financial statements are organized and operated on the basis of funds and account groups and are used to account for the District's general governmental activities. Fund accounting segregates funds according to their intended purpose, and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, reserves, fund balance, revenues and expenditures or expenses as appropriate. The minimum number of funds is maintained consistent with legal and managerial requirements. Account Groups are a reporting device to account for certain assets and liabilities of the governmental funds not recorded directly in those funds.

Measurement Focus and Basis of Accounting

The District has the following fund types and account groups:

Governmental Funds are used to account for the District's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual, i.e., when they are both "measurable and available". "Measurable" means that the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, expenditures for unmatured principal and interest on general long-term debt are recognized when due; and certain compensated absences, claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources and pension expenditures.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Major Governmental Funds

Educational Fund - the general operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund. This fund is primarily used for most of the instructional and administrative aspects of the District's operations. Revenues consist largely of local property taxes and state government aid.

This fund also includes student activity funds held and controlled by the District, under the direction of district personnel, and administrative involvement of the Board of Education.

Special Revenue Funds - account for the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes, other than those accounted for in the Debt Service Fund or Capital Projects Funds.

Each of the District's Special Revenue Funds has been established as a separate fund in accordance with the fund structure required by the State of Illinois for local educational agencies. These funds account for local property taxes restricted to specific purposes. A brief description of the District's Special Revenue Funds follows:

Tort Immunity and Judgment Fund - accounts for all revenue and expenditures related to the prevention of tort liability. Revenue is derived primarily from local property tax collections and investment income.

Operations and Maintenance Fund - accounts for expenditures made for repair and maintenance of the District's buildings and land. Revenue consists primarily of local property taxes.

Transportation Fund - accounts for all revenue and expenditures made for student transportation. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund - accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for non-certified employees. Revenue to finance the contributions is derived primarily from local property taxes and personal property replacement taxes.

Working Cash Fund - accounts for financial resources held by the District to be used as temporary interfund loans for working capital requirements to the General Fund and the Special Revenue Fund's Operation and Maintenance and Transportation Funds. Money loaned by the Working Cash Fund to other funds must be repaid within one year. As allowed by the School Code of Illinois, this fund may be permanently abolished and become a part of the General Fund or it may be partially abated any other fund of the District.

Debt Service Fund - accounts for the accumulation of resources that are restricted, committed, or assigned for, and the payment of, long-term debt principal, interest and related costs. The primary revenue source is local property taxes levied specifically for debt service.

Capital Project Funds - accounts for the financial resources that are restricted, committed, or assigned to be used for the acquisition or construction of, and/or additions to, major capital facilities.

Capital Projects Fund - accounts for construction projects and renovations financed through serial bond issues, grants or funds assigned to capital projects by the District.

NOTES TO BASIC FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Fire Prevention and Life Safety Fund - accounts for State-approved life safety projects financed through serial bond issues or local property taxes levied specifically for such purposes.

On-behalf payments (payments made by a third party for the benefit of the district, such as payments made by the state to the Teachers' Retirement System) have been recognized in the financial statements.

Property taxes, replacement taxes, certain state and federal aid, and interest on investments are susceptible to accrual. Other receipts become measurable and available when cash is received by the District and recognized as revenue at that time.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until earned.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets, deferred outflows of resources, liabilities, and deferred inflows of resources at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Assets, Liabilities and Net Position or Equity

Deposits and Investments

State statutes authorize the District to invest in obligations of the U.S. Treasury, certain highly-rated commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool. Investments are stated at fair value. Changes in fair value of investments are included as investment income.

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Receivables are expected to be collected within one year.

Property Tax Revenues

The District must file its tax levy resolution by the last Tuesday in December of each year. The District's 2022 levy resolution was approved during the December 19, 2022 board meeting. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year.

The tax rate ceilings are applied at the fund level. These ceilings are established by state law subject to change only by the approval of the voters of the District.

AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

The PTELL limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELL limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is “new growth” in the District’s tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation. The PTELL limits applicable to the 2022 and 2021 tax levies were 5.0% and 1.4%, respectively.

Property taxes are collected by the Cook County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two installments: the first due on March 1 and the second due on the later of August 1 or 30 days after the second installment tax bill is mailed. The first installment is an estimated bill, and is fifty-five percent of the prior year's tax bill. The second installment is based on the current levy, assessment and equalization, and any changes from the prior year will be reflected in the second installment bill. Property taxes are normally collected by the District within 60 days of the due date.

The 2022 property tax levy is recognized as a receivable in fiscal 2023, net of estimated uncollectible amounts approximating 2% and less amounts already received. The District considers that the first installment of the 2022 levy is to be used to finance operations in fiscal 2023. The District has determined that the second installment of the 2022 levy is to be used to finance operations in fiscal 2024 and has included the corresponding receivable as a deferred inflow of resources.

Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement / Social Security Fund, and the balance is allocated to the remaining funds at the discretion of the District.

Prepaid Items

Certain payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Fixed Assets

Fixed assets used in governmental fund types of the District are recorded in the general fixed assets account group at cost or estimated historical cost if purchased or constructed. Donated fixed assets are recorded at their estimated fair value at the date of donation. Interest incurred during construction is not capitalized on general fixed assets.

Depreciation of general fixed assets is provided over the estimated useful lives using the straight-line method and is reflected within the general fixed assets account group for informational purposes only. Depreciation of general fixed assets is not charged to the operations of the District. The estimated useful lives of the buildings and improvements, and equipment of the District are 15 to 50 years, and 5 to 10 years, respectively.

Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

BERKELEY SCHOOL DISTRICT 87
NOTES TO BASIC FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, or are payable with expendable available resources.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at June 30, 2023 are determined on the basis of current salary rates and include salary related payments.

Long-Term Obligations

The District reports long-term debt of governmental funds at face value in the general long-term debt account group. Certain other long-term obligations that do not show evidence of indebtedness are not included in the general long-term debt account group.

For governmental fund types, bond premiums and discounts are recognized during the current period. Bond proceeds are reported as an "other financing source" net of the applicable premium or discount.

General Fixed Assets and General Long-Term Debt Account Groups

Account groups are used to establish accounting control and accountability for the District's general fixed assets and general long-term debt. The accounting and financial reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus.

Fixed Assets - General fixed assets have been acquired for general governmental purposes. At the time of purchase, assets are recorded as expenditures paid in the Governmental Funds and capitalized at cost in the General Fixed Assets Account Group. Donated general fixed assets are listed at estimated fair market value as of the date of acquisition. Depreciation accounting is not applicable, except to determine the per capita tuition charge. Interest costs incurred during construction are not capitalized as part of fixed assets.

Long-Term Debt - Long-term debt expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental funds. The debt recorded in the District's General Long-Term Debt Account Group consists of serial bond issues, long-term debt retirements payable, and any other evidences of indebtedness.

The two account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Data

Except for the exclusion of on-behalf payments from other governments, discussed below, the budgeted amounts for the Governmental Funds are adopted on the modified accrual basis, which is consistent with accounting principles generally accepted in the United States of America.

The Board of Education follows these procedures in establishing the budgetary data reflected in the general purpose financial statements:

1. The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
3. Prior to September 30, the budget is legally adopted through passage of a resolution. By the last Tuesday in December, a tax levy resolution is filed with the county clerk to obtain tax revenues.
4. Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education, after following the public hearing process mandated by law.
5. Formal budgetary integration is employed as a management control device during the year for all governmental funds.
6. All budget appropriations lapse at the end of the fiscal year.

The Board of Education amended the budget on June 26, 2023.

Excess of Expenditures over Budget

For the year ended June 30, 2023, expenditures exceeded budget in the Transportation Fund and the Municipal Retirement/Social Security Fund by \$189,242 and \$1,805, respectively. These excesses were funded by available fund balances.

NOTE 3 - DEPOSITS AND INVESTMENTS

Cash & Investments under the custody of the Township Treasurer

Under the Illinois Compiled Statutes, the Proviso Township School Treasurer is the lawful custodian of all school funds. The Treasurer is appointed by the Township School Trustees, an independently elected body, to serve the school districts in the township. The Treasurer is the direct recipient of property taxes, replacement taxes and most state and federal aid and disburses school funds upon lawful order of the school board. The Treasurer invests excess funds at his discretion, subject to the legal restrictions discussed below. For these purposes, the Treasurer is permitted to combine monies from more than one fund of a single district and to combine monies of more than one district in the township. Monies combined under these circumstances, as well as investment earnings, are accounted for separately for each fund and/or district.

BERKELEY SCHOOL DISTRICT 87
 NOTES TO BASIC FINANCIAL STATEMENTS
 AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

NOTE 3 - DEPOSITS AND INVESTMENTS - (CONTINUED)

Cash and investments, other than the student activity and convenience accounts, petty cash, and imprest funds, are part of a common pool for all school districts and cooperatives within the township. The Treasurer maintains records that segregate the cash and investment balance by district or cooperative. Income from investments is distributed monthly based upon the District's percentage participation in the pool. All cash for all funds, including cash applicable to the Debt Service Fund and the Illinois Municipal Retirement/Social Security Fund, is not deemed available for purposes other than those for which these balances are intended.

The Treasurer's investment policies are established by the Proviso Township School Trustees as prescribed by the Illinois School Code and the Illinois Compiled Statutes. The Treasurer is authorized to invest in obligations of the U.S. Treasury, backed by the full faith and credit of the U.S. Government, certificates of deposit issued by commercial banks and savings and loan associations, and commercial paper rated within the three highest classifications by at least two standard rating services (subject to certain limitations).

The Treasurer's Office operates as a non-rated, external investment pool. The fair value of the District's investment in the Treasurer's pool is determined by the District's proportionate share of the fair value of the investments held by the Treasurer's office.

The weighted average maturity of all marketable pooled investments held by the Treasurer was 0.60 years at June 30, 2023. The Treasurer also holds money market type investments, certificates of deposits and other deposits with financial institutions. As of June 30, 2023, the fair value of all investments held by the Treasurer's office was \$401,850,886 and the fair value of the District's proportionate share of the pool was \$67,519,041.

Because all cash and investments are pooled by a separate legal governmental agency (Treasurer), categorization by risk category is not determinable. Further information about whether investments are insured, collateralized, or uncollateralized is available from the Treasurer's financial statements.

Cash & Investments in the custody of the District

Deposits of the student activity and imprest funds, which are held in the District's custody, consist of deposits with financial institutions. The following is a summary of such deposits:

	<i>Carrying Value</i>	<i>Bank Balance</i>
Deposits with financial institutions	\$ 102,147	\$ 104,921
Total	\$ 102,147	\$ 104,921

The District maintains \$914 in petty cash.

Custodial Credit Risk - Deposits. With respect to deposits, custodial credit risk refers to the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. As of June 30, 2023, the bank balance of the District's deposit with financial institutions, which was fully insured, totaled, \$104,921.

BERKELEY SCHOOL DISTRICT 87
 NOTES TO BASIC FINANCIAL STATEMENTS
 AS OF AND FOR THE YEAR ENDED JUNE 30, 2023

NOTE 3 - DEPOSITS AND INVESTMENTS - (CONTINUED)

Separate cash and investment accounts are not maintained for all District funds; instead, the individual funds maintain their invested and uninvested balances in the common checking and investment accounts, with accounting records being maintained to show the portion of the common account balance attributable to each participating fund.

NOTE 4 - INTERFUND TRANSFERS

During the year, the Board transferred \$68,689 in interest earned in the General Fund (Working Cash Accounts) to the General Fund (Educational Accounts). The Board also transferred \$40,791 of interest earned in the Debt Service Fund to the Operations & Maintenance Fund.

Also during the year, the Board transferred \$82,544 from the General Fund (Educational Accounts) to the Debt Service Fund for the payment of principal and interest on outstanding leases.

Also during the year, the Board transferred \$1,000,000 from the Transportation Fund and \$500,000 from the Operations & Maintenance Fund to the General Fund (Educational Accounts) to meet the needs of the Educational Accounts. The Board also transferred \$3,000,000 from the Operations & Maintenance Fund to the Capital Projects Fund to cover the costs of capital project expenditures.

State law allows for the above transfers.

Series 2021, Limited School Bonds dated March 2, 2021 are due in annual installments through December 1, 2040	2.00% - 5.00%	60,760,000	57,790,000
Series 2022A, Limited School Bonds dated March 1, 2022 are due in annual installments through December 1, 2041	4.00%	8,130,000	8,130,000
Series 2022B, Refunding School Bonds dated September 7, 2022 are due in annual installments through December 1, 2032	2.10%	<u>3,625,000</u>	<u>3,625,000</u>
Total		<u>\$ 107,665,000</u>	<u>\$ 90,680,000</u>

During the year, the District issued \$3,625,000 in General Obligation Bonds with an average interest rate of 2.10% to advance refund \$3,550,000 of outstanding 2013A Series bonds with an average interest rate of 3.16%. The net proceeds were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments on the 2013A Series bonds. As a result, the 2013A Series bonds are considered to be defeased and the liability for those bonds has been removed from the Statement of Net Position.

The District advance refunded the 2013A Series bonds to reduce its total debt service payments over the next 10 years by \$143,040. This transaction resulted in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$127,249.

In prior years, the District defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2023, \$3,685,000 of bonds outstanding are considered defeased.

As of June 30, 2023, the statutory debt limit for the District was \$38,765,201, providing a debt margin of \$34,683,949.

Leases. The District has entered into lease agreements as a lessee for financing the temporary acquisition of copier equipment. These agreements qualify as leases for accounting purposes and, therefore, the assets and obligations have been recorded at the present value of the future minimum lease payments as of the inception date. The obligations for the capital leases will be repaid from the Debt Service Fund via a transfer from the General Fund (Educational Accounts).

NOTE 6 - RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; workers' compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect from such risks, the District participates in the following public entity risk pools: Educational Benefit Cooperative (EBC) for health benefits claims, School Employee Loss Fund (SELF) for workers' compensation claims, and Suburban School Cooperative Insurance Pool (SSCIP) for property damage and injury claims. The District pays annual premiums to the pools for insurance coverage. The arrangements with the pools provide that each will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pools. There have been no significant reductions in insurance coverage from coverage in any of the past three fiscal years.

The District continues to carry commercial insurance for all other risks of loss, including torts and professional liability insurance. Premiums have been recorded as expenditures in the appropriate funds. There have been no significant reductions in insurance coverage from coverage in the prior years. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 7 - OTHER POST-EMPLOYMENT BENEFITS

Teachers' Health Insurance Security

Plan Description. The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: <http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp>. The current reports are listed under "Central Management Services."

Benefits Provided. The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

On Behalf Contributions to THIS Fund. The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 0.90% of pay during the year ended June 30, 2023. State of Illinois contributions were \$145,027 were recognized as revenues and expenditures by the District during the year in the General Fund based on the current financial resources measurement basis. On the economic resources measurement basis, the District recognizes revenues and expenses of \$(2,039,883) in Governmental Activities equal to the proportion of the State of Illinois's OPEB expense associated with the employer.

Contributions. The District also makes contributions to THIS Fund. The District's THIS Fund contribution was 0.67% during the year ended June 30, 2023. The percentage of employer required contributions in the future will not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. For the year ended June 30, 2023, the District paid \$107,965 to the THIS Fund, respectively, which was 100 percent of the required contribution for the year.

THIS Fiduciary Net Position. Detailed information about the THIS Fund's fiduciary net position as of June 30, 2022 is available in the separately issued THIS Annual Financial Report.

Net OPEB Liability. At June 30, 2023, the District reported a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for the state's retiree insurance support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collection net OPEB liability	\$ 3,989,693
State's proportionate share of the collective net OPEB liability associated with the District	<u>5,427,585</u>
Total	<u><u>\$ 9,417,278</u></u>

The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability was determined by an actuarial valuation as of June 30, 2021 rolled forward to June 30, 2022. The District's proportion of the net OPEB liability was based on the District's share of contributions to THIS for the measurement year ended June 30, 2022, relative to the projected contributions of all participating THIS employers and the state during that period. At June 30, 2022 and 2021, the District's proportion was 0.058211% and 0.061564%, respectively.

Actuarial Assumptions. The net OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%
Salary Increases	3.50% to 8.50%
Investment Rate of Return	2.75%
Healthcare Cost Trend Rates - Initial	Medicare and Non-Medicare - 8.00%
Healthcare Cost Trend Rates - Ultimate	4.25%
Fiscal Year the Ultimate Rate is Reached	2039

Mortality rates were based on the PubT-2010 Retiree Mortality Table, adjusted for TRS experience. For disabled annuitants, mortality rates were based on PubNS-2010 Non-Safety Disabled Retiree Table. All tables reflect future mortality improvements using Projection Scale MP-2020.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

Discount Rate. At June 30, 2022, the discount rate used to measure the total OPEB liability was a blended rate of 3.69%, which was a change from the June 30, 2021 rate of 1.92%. Since THIS is financed on a pay-as-you-go basis, the discount rate is based on the 20-year general obligation bond index.

Retirees' Health Plan

Plan Description. The District's group health insurance plan provides coverage to active employees and retirees (or other qualified terminated employees) at blended premium rates. This results in an other postemployment benefit (OPEB) for the retirees, commonly referred to as an implicit rate subsidy.

Contributions and Benefits Provided. Contribution requirements are established through personnel policy guidelines and may be amended by the action of the governing body. Employees are eligible for postemployment health benefits upon reaching the age of 55, regardless of number of years of service in the District. Medical and prescription coverage is available to eligible retirees of any age. Retirees may elect coverage through one of the three District-sponsored medical plans. Retirees who continue coverage on the District's plans pay the full premium and premium equivalents.

Retiree Premium Grant

The District provides an annual grant of \$1,500 (payable quarterly) to defray the cost of insurance coverage for eligible retirees. These payments are to be made for up to five years or until the retiree becomes Medicare eligible. The following groups may receive the benefit:

1) Retiring full time teachers who choose to obtain medical insurance coverage by enrolling in the TRS Teachers' Retirement Insurance Program ("TRIP") and who have at least 15 years of service with the District. Teachers may participate in TRIP when they are drawing from their pension and have at least eight years of service credit.

2) Retiring full time employees (non-teachers) who have at least 15 years of service with the District, regardless of whether or not they continue coverage through the District at retirement.

Employees Covered by Benefit Terms. At June 30, 2022, the actuarial valuation date, the following employees were covered by the benefit terms:

NOTE 8 - RETIREMENT SYSTEMS

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

NOTE 8 - RETIREMENT SYSTEMS - (CONTINUED)

Teachers' Retirement System

Plan Description. The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at <https://www.trsil.org/financial/acfrs/fy2022>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits Provided. TRS provides retirement, disability, and death benefits. *Tier 1* members have TRS or reciprocal system service prior to January 1, 2011. *Tier 1* members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for *Tier 2* are identical to those of *Tier 1*. Death benefits are payable under a formula that is different from *Tier 1*.

Essentially all *Tier 1* retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. *Tier 2* annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional *Tier 3* hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2024. One program allows retiring *Tier 1* members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested *Tier 1* and *Tier 2* members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

Contributions. The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2022 was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the District, is submitted to TRS by the District.

On Behalf Contributions to TRS. The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2023, State of Illinois contributions recognized by the District were based on the state's proportionate share of with the pension expense associated with the District, and the District recognized revenue and expenses of \$8,978,082 in governmental activities based on the economic resources measurement basis and revenues and expenditures in the amount of \$7,736,094 in the General Fund based on the current financial resources measurement basis.

2.2 Formula Contributions. Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2023, were \$93,462 , and are deferred because they were paid after the June 30, 2022 measurement date.

Federal and Special Trust Fund Contributions. When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total District normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much more higher.

For the year ended June 30, 2023, the District pension contribution was 10.49 percent of salaries paid from federal and special trust funds. Contributions for the year ended June 30, 2023, were \$52,316, which was equal to the District's required contribution. These contributions are deferred because they were paid after the June 30, 2022 measurement date.

TRS Fiduciary Net Position. Detailed information about the TRS's fiduciary net position as of June 30, 2022 is available in the separately issued TRS Annual Comprehensive Financial Report.

Net Pension Liability. At June 30, 2023, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 1,317,631
State's proportionate share of the collective net pension liability associated with the District	114,295,748
Total	\$ 115,613,379

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021, and rolled forward to June 30, 2022. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2022, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2022 and 2021, the District's proportion was 0.00157160 percent and 0.00178274 percent, respectively.

Summary of Significant Accounting Policies. For purposes of measuring the collective net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of TRS and additions to/deductions from TRS fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The assumptions used to measure the total pension liability in the June 30, 2022 actuarial valuation included (a) 7.00% investment rate of return net of pension plan investment expense, including inflation, (b) projected salary increases varies by amount of service credit, and (c) inflation of 2.5%.

Mortality. The assumed mortality rates are based on the Society of Actuaries PubT-2010 mortality tables, adjusted for TRS experience, with generational improvement based on Scale MP-2020. The actuarial assumptions used were based on the results of an experience study dated August 12, 2021.

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. equities large cap	16.30 %	5.73 %
U.S. equities small/mid cap	1.90 %	6.78 %
International equities developed	14.10 %	6.56 %
Emerging market equities	4.70 %	8.55 %
U.S. bonds core	6.90 %	1.15 %
Cash equivalents	1.20 %	(0.32)%
TIPS	0.50 %	0.33 %
International debt developed	1.20 %	6.56 %
Emerging international debt	3.70 %	3.76 %
Real estate	16.00 %	5.42 %
Private debt	12.50 %	5.29 %
Hedge funds	4.00 %	3.48 %
Private equity	15.00 %	10.04 %
Infrastructure	2.00 %	5.86 %

Discount Rate. At June 30, 2022, the discount rate used to measure the total pension liability was a blended rate of 7.00 percent, which was the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

NOTE 8 - RETIREMENT SYSTEMS - (CONTINUED)

Based on those assumptions, TRS's fiduciary net position at June 30, 2022 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. *Tier 1's* liability is partially funded by *Tier 2* members, as the *Tier 2* member contribution is higher than the cost of *Tier 2* benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

Illinois Municipal Retirement Fund

Plan Description. The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer pension plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on-line at www.imrf.org.

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Public Act 96-0889 created a second tier for IMRF's Regular Plan. IMRF assigns a benefit tier to a member when he or she is enrolled in IMRF. The tier is determined by the member's first IMRF participation date. If the member first participated in IMRF before January 1, 2011, they participate in *Regular Tier 1*. If the member first participated in IMRF on or after January 1, 2011, they participate in *Regular Tier 2*.

For *Regular Tier 1*, pension benefits vest after eight years of service. Participating members who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under *Regular Tier 1*, the pension is increased by 3% of the original amount on January 1 every year after retirement. For *Regular Tier 2*, pension benefits vest after ten years of service. Participating members who retire at or after age 67 with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under *Regular Tier 2*, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Plan Membership. At December 31, 2022, the measurement date, membership of the plan was as follows:

Retirees and beneficiaries	133
Inactive, non-retired members	118
Active members	115
Total	366

Contributions. As set by statute, District employees participating in IMRF are required to contribute 4.50 percent of their annual covered salary. The statute requires the District to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actuarially determined contribution rate for calendar year 2022 was 8.46 percent of annual covered payroll. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

Summary of Significant Accounting Policies. For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The assumptions used to measure the total pension liability in the December 31, 2022 annual actuarial valuation included (a) 7.25% investment rate of return, (b) projected salary increases from 2.85% to 13.75%, and (c) price inflation of 2.25%. The retirement age is based on experience-based table of rates that are specific to the type of eligibility condition. The tables were last updated for the 2020 valuation pursuant to an experience study of the period 2017-2019.

Mortality. For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020 were used. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used.

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Projected Returns/Risk	
		One Year Arithmetic	Ten Year Geometric
Equities	35.50 %	7.82 %	6.50 %
International equities	18.00 %	9.23 %	7.60 %

Discount Rate. The discount rate used to measure the total pension liability for IMRF was 7.25%, the same rate as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits payments to determine the total pension liability.

Discount Rate Sensitivity. The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents the pension liability of the District calculated using the discount rate of 7.25% as well as what the net pension liability/(asset) would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase

NOTE 9 - STATE AND FEDERAL AID CONTINGENCIES

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under the terms of the grants. Management believes such disallowance, if any, would be immaterial.

NOTE 10 - CONSTRUCTION COMMITMENTS

As of June 30, 2023, the District is committed to approximately \$17,577,389 in expenditures in the upcoming years for various construction projects. These expenditures will be paid through the available fund balances and building bonds already issued.

Current Year Payment on Contracts For Indirect Cost Rate Computation

Please do not remove and reinsert this tab from the workbook or paste into this tab. The AFR will be returned to the auditor if this tab is completed incorrectly.

This schedule is to calculate the amount allowed on contracts obligated by the school district for the Indirect Cost Rate calculation. The contracts should be only for purchase services and not for salary contracts. Do not include contracts for Capital Outlay (500) or Non-Capitalized Equipment (700) on this schedule. They are excluded from the Indirect Cost Rate calculation.

To determine the applicable contracts for this schedule, they must meet ALL three qualifications below:

- 1. The contract must be coded to one of the combinations listed on the icon below.
2. The contract must meet the qualifications below on the "Subaward & Subcontract Guidance" and the "Indirect Cost Rate Plan" (Sub-agreement for Services).
3. Only list contracts that were paid over \$25,000 for the fiscal year.

Use the resources to the right to determine if the contract should be listed below.

Indirect Cost Rate Plan

Column A, B, C, D below must be completed for each contract. Enter Column B without hyphens. Ex) 101000600

Column (E) and (F) are calculated automatically based on the information provided in Columns (A through D).

The amount in column (E) is the amount allowed on each contract in the Indirect Cost Rate calculation. The amount in column (F) is the amount that will be deducted from the base in the indirect cost rate (tab 41) for Program Year 2025.

Table with 6 columns: Enter Fund-Function-Object Name, Where the Expenditure was Recorded (Column A); Fund- Function- Object Number (Column B); Enter Contracted Company Name (Column C); Enter Current Year Amount Paid on Contract (must be less than or equal to amount reported in the AFR's "Expenditures 16-24" tab) (Column D); Contract Amount Applied to the Indirect Cost Rate Base (Column E); Contract Amount deducted from the Indirect Cost Rate Base (Column F). Includes rows for ED-Instruction-Other, ED-Instruction, ED-Special Ed, ED-Health Services, ED-Fiscal Services, O&M Operations, and TRANS Transportation.

1	DEFICIT ANNUAL FINANCIAL REPORT (AFR) SUMMARY INFORMATION Provisions per Illinois School Code, Section 17-1 (105 ILCS 5/17-1)					
2	<i>Instructions: If the Annual Financial Report (AFR) reflects that a Deficit Reduction Plan is required as calculated below, then the school district is to complete the Deficit Reduction Plan in the annual budget and submit the plan to Illinois State Board of Education (ISBE) within 30 days after accepting the audit report. This may require the FY2024 annual budget to be amended to include a Deficit Reduction Plan and narrative.</i>					
3	The "Deficit Reduction Plan" is developed using ISBE guidelines and is included in the School District Budget Form 50-36, beginning with page 22. A plan is required when the operating funds listed below result in direct revenues (cell F8) being less than direct expenditures (cell F9) by an amount equal to or greater than one-third (1/3) of the ending fund balance (cell f11). That is, if the ending fund balance is less than three times the deficit spending, the district must adopt and submit an original budget/amended budget with ISBE that provides a "deficit reduction plan" to balance the shortfall within the next three years.					
4	- If the FY2024 school district budget already requires a Deficit Reduction Plan, and one was submitted, an updated (amended) budget is not required.					
5	- If the Annual Financial Report requires a deficit reduction plan even though the FY2024 budget does not, a completed deficit reduction plan is still required.
